Renee Ones, Treasurer
April Byron, Member

Dear Parent/Guardian,

Welcome to all our new and returning students for the 2025-2026 school year. We are so excited to officially welcome everyone on September 2nd, 2025. Please ensure the appropriate health forms are submitted to your child's Office **before** the start of the school year.

1) STUDENT HEALTH INFORMATION

- Medical information must be completed annually in Infinite Campus.
- It is your responsibility to notify the school office if there is a change in your child's health which will affect their learning day (illness, injury, surgery, new medication). A note from your child's Medical Provider is required for continuity of medical care. (A complete After-Visit-Summary is allowed).
- Students are not allowed to carry medication, unless the school receives the appropriate paperwork signed by a Medical Provider and Parent/Guardian. (Only emergency medication is allowed to be self-carried).

2) MEDICATION CONSENT FORM

- This form must be completed annually by a Medical Provider and Parent/Guardian if medication administration is required during school and school-sponsored activities.

3) EMERGENCY MEDICATION

- Appropriate paperwork is required, along with the appropriate Emergency Action Plan.

4) STUDENT IMMUNIZATION RECORD

- This form must be completed annually if you are waiving a vaccination requirement.
- Per **Wis. Stat. §252.04** school enrollment requires proof of the required vaccinations by the 30th day of school.
- There are 2 ways to have your child in compliance:
 - a) Show proof of required vaccinations, b) Sign a waiver.
- Please review your child's vaccination record at the Wisconsin Immunization Registry at: www.dhfs.wisconsin.gov/immunization
- Please note the changes that made on May 20, 2024 will now be fully required.
PLEASE TAKE NOTE!

If you have questions about immunizations that are required for school, please call your child's Medical Provider or the District School Nurse.

Sincerely,

Adriana Addison, FNP-BC, RN
District School Nurse

Erin Hansford
Elementary Principal

Marcus Cornelius
6-12 Principal

STUDENT IMMUNIZATION LAW AGE/GRADE REQUIREMENTS

The following are the minimum required immunizations for each age and grade level according to the Wisconsin Student Immunization Law. These requirements can be waived for health, religious, or personal conviction reasons. Additional immunizations may be recommended for your child depending on his or her age. Please contact your doctor or local health department to determine if your child needs additional immunizations.

Table 144.03-A
Required Immunizations for the 2025-2026 School Year and the Following School Years

Age/Grade	Required Immunizations (Number of Doses)								
5 months through 15 months	2 DTP/DTaP/DT		2 Polio			2 Hep B	2 Hib	2 PCV	
16 months through 23 months	3 DTP/DTaP/DT		2 Polio	1 MMR		2 Hep B	3 Hib	3 PCV	
2 years through 4 years	4 DTP/DTaP/DT		3 Polio	1 MMR	1 Var	3 Hep B	3 Hib	3 PCV	
Kindergarten through grade 6	4 DTP/DTaP/DT		4 Polio	2 MMR	2 Var	3 Hep B			
Grade 7 through grade 11	4 DTP/DTaP/DT	1 Tdap	4 Polio	2 MMR	2 Var	3 Hep B			1 Mening
Grade 12	4 DTP/DTaP/DT	1 Tdap	4 Polio	2 MMR	2 Var	3 Hep B			2 Mening

- Requirements did not take effect until February 1, 2023, and the rule was therefore not in effect for the 2021-2022 or 2022-2023 school years. The Tdap requirement for grades 7-11 was implemented for the 2023-2024 school year. The Meningococcal (serogroup A,C,W,Y) requirement was implemented for the 2024-2025 school year.
- Schools are not required to verify Hib and PCV vaccines for Pre-K students.
- Children 5 years of age or older who are enrolled in a Pre-K class should be assessed using the immunization requirements for Kindergarten through Grade 5, which would normally correspond to the individual's age.
- D = diphtheria, T = tetanus, P = pertussis vaccine. DTaP/DTP/DT/Td vaccine for all students Pre-K through 12: Four doses are required. However, if a student received the 3rd dose after the 4th birthday, further doses are not required. **Note:** A dose four days or less before the 4th birthday is also acceptable.
- DTaP/DTP/DT vaccine for children entering Kindergarten: Each student must have received one dose after the 4th birthday (either the 3rd, 4th, or 5th dose) to be compliant. **Note:** a dose four days or less before the 4th birthday is also acceptable.
- Tdap is an adolescent tetanus, diphtheria, and acellular pertussis combination vaccine. If a student received a dose of a tetanus-containing vaccine, such as Td, within five years before entering the grade in which Tdap is required, the student is compliant and a dose of Tdap vaccine is not required.
- Polio vaccine for students entering grades Kindergarten through 12: Four doses are required. However, if a student received the 3rd dose after the 4th birthday, further doses are not required. **Note:** a dose four days or less before the 4th birthday is also acceptable.
- Laboratory evidence of immunity to hepatitis B is also acceptable.
- MMR is measles, mumps, and rubella vaccine. The first dose of MMR vaccine must have been received on or after the 1st birthday. Laboratory evidence of immunity to all three diseases (measles and mumps and rubella) is also acceptable. **Note:** A dose four days or less before the 1st birthday is also acceptable.
- Varicella vaccine is chickenpox vaccine. Students with a reliable history of varicella disease are not required to receive the Varicella vaccine. A physician, physician assistant, or advanced practice nurse prescriber must document a reliable history of varicella disease by indicating that the student has had varicella and signing the Student Immunization Form (DHS Form 04020L). Students (excluding new enterers and kindergartners) with a parental report of disease prior to May 2024 are considered compliant.
- One dose of Meningococcal vaccine (serogroup A,C,W,Y) is required for students entering 7th grade, and a booster dose is required for students entering 12th grade. Students are assessed for this requirement in 7th grade and 12th grade only. Current Wisconsin students in 8th-11th grade will not be assessed for this requirement until they enter 12th grade. A second dose is not required for students who received their first dose of MenACWY at age 16 years or older.
